

# We asked Australians and New Zealanders where (if anywhere) they're likely to travel for leisure in the next 12 months...

In April 2021...

25 percent of New Zealanders said they're likely to travel to Australia in the next 12 months

18 percent of Australians said they're likely to travel to New Zealand in the next 12 months

“While not all will proceed with trans-Tasman travel in the time period stated, we should see New Zealand reaping the greater benefit because of the respective population size of each country”.
